

LEHD

LONGITUDINAL EMPLOYER - HOUSEHOLD DYNAMICS

ALFRED SUNDARA, AICP
MARYLAND DEPARTMENT OF PLANNING

LEHD DATA

- LEHD data is available in three groups
 - Residence Area Characteristics
 - Workforce Area Characteristics
 - Origin Destination data

RESIDENCE AREA CHARACTERISTICS

- Total number of Jobs by area of residence
- Number of jobs by age in three groups
- Number of jobs by monthly earnings in three groups
- Number of workers in NAICS sector
- Number of workers by Race, ethnicity, educational attainment and sex

WORKPLACE AREA CHARACTERISTICS

- Total number of Jobs by place of Work
- Number of jobs by age in three groups
- Number of jobs by monthly earnings in three groups
- Number of workers in NAICS sector
- Number of workers by Race, ethnicity, education attainment and sex

ORIGIN-DESTINATION DATA

- OD data includes total jobs by area
- Number of jobs by three age groups
- Number of jobs by monthly earnings in three groups
- Jobs by major industry sector (three)

What's New?

- 10/08/15: [Using LEHD Data to Analyze Economic Development Districts](#)

[View all announcements](#)

About Us

The Longitudinal Employer-Household Dynamics (LEHD) program is part of the [Center for Economic Studies](#) at the [U.S. Census Bureau](#). The [LEHD program](#) produces new, cost effective, public-use information combining federal, state and Census Bureau data on employers and employees under the [Local Employment Dynamics \(LED\) Partnership](#). State and local authorities increasingly need detailed local information about their economies to make informed decisions. The LED Partnership works to fill critical data gaps and provide indicators needed by state and local authorities.

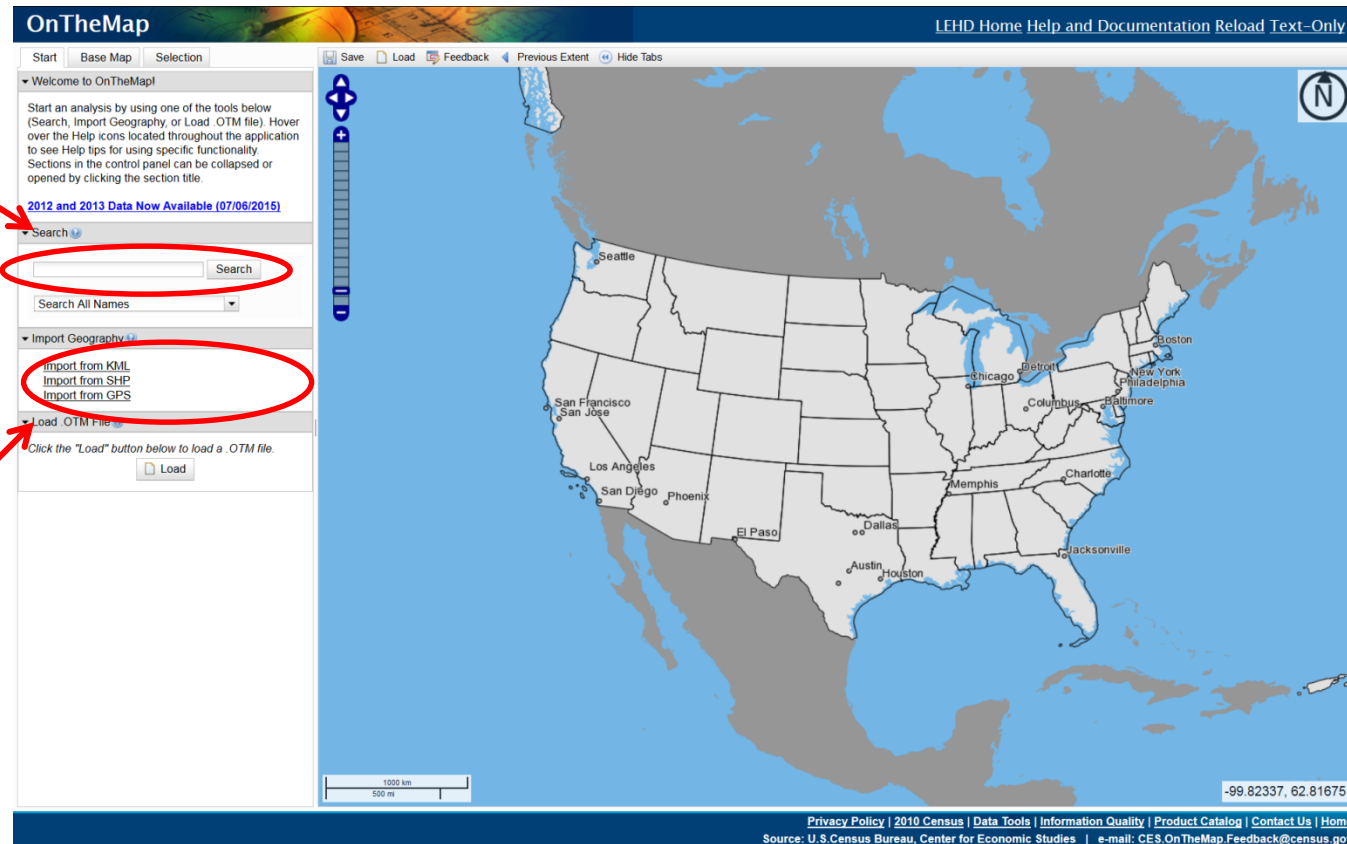

Under the LED Partnership, states agree to share Unemployment Insurance earnings data and the Quarterly Census of Employment and Wages (QCEW) data with the Census Bureau. The LEHD program combines these administrative data, additional administrative data and data from censuses and surveys. From these data, the program creates statistics on employment, earnings, and job flows at detailed levels of geography and industry and for different demographic groups. In addition, the LEHD program uses these data to create partially synthetic data on workers' residential patterns.

ONTheMAP

- Search by name of place or County

- Select by importing a polygon or Shape

- Click on **Perform Analysis on Selection Area** link

The screenshot shows the OnTheMap web application. The interface includes a top navigation bar with 'Start', 'Base Map', and 'Selection' tabs. A left sidebar contains a search bar and a list of search categories. The main map area displays a street map of Baltimore and Dundalk, MD. A red arrow points from the text 'Perform Analysis on Selection Area' to a button with the same text in a pop-up window. The pop-up window also includes a 'Change Selection Area' link and an 'Add Advanced Selection' link. The bottom of the page features a footer with links to 'Privacy Policy', '2010 Census', 'Data Tools', 'Information Quality', 'Product Catalog', 'Contact Us', and 'Home'. The source is cited as 'U.S. Census Bureau, Center for Economic Studies' and the email is 'CES.OnTheMap.Feedback@census.gov'.

LEHD Origin-Destination Employment Statistics (LODES)

LEHD Origin-Destination Employment Statistics (LODES) used by [OnTheMap](#) are available for download below. Version 7 of LODES was enumerated by 2010 census blocks. Previous versions of LODES were enumerated with 2000 census blocks.

Data files are state-based and organized into three types: Origin-Destination (OD), Residence Area Characteristics (RAC), and Workplace Area Characteristics (WAC), all at census block geographic detail. Data is available for most states for the years 2002–2013.

To browse the LODES data files in their directory structure or to access them with a FTP program (must be able to access HTTP), go to <http://lehd.ces.census.gov/data/lodes/>.

Download LODES data*:

LEHD DATA DOWNLOADS

- Data is available in CSV format
- Data available for both 2000 and 2010 geographies to the census block level
- Census 2000 geography data is available from 2002 to 2009
- Census 2010 geography data is available from 2002 to 2013
- Federal employment is available from 2010-2013 Data sets

LEHD DATA LIMITATIONS

- Multiple worksite employers may show all employees located at primary address
- Only one State (Minnesota) requires employers to identify specific worksites on wage records
- Does not have Journey to work characteristics (mode and travel time)
- Income data is for a job not to be confused with household income.
